

**Nalbari College, Nalbari**

**Teaching Plan for the Session:** 2022-2023

**Name of the Teacher:** Dr. Namita Deka

**Department:** Botany

**Paper Name:** Bioertilizers

**Learning Objectives:** To make student aware about

1. microbes as biofertilizer
2. Process of vermicomposting

**Semester:** SEM-III

**Paper Code:** BOT-SE-3014

| SL. No of Lecture | Topic/ Subtopic   | Learning Resources | Mode of Teaching & ICT Tools            | Experiential / Participating Learning Used    | Mode of Assessment for CIE |
|-------------------|---|--------------------|---|---|----------------------------|
| 1                 | Introduction to Biofertilizer   | Text books         | Lecture based<br>;chal & black<br>board |   |                            |
| 2                 | Green manuring and organic fertilizer                                       | do                 | do                                      |   | Sessional exam             |
| 3                 | Recycling of biodegradable municipal,<br>agricultural and industrial wastes | Journal            | do                                      | Participating Learning<br>by Open questioning |                            |

|   |                            |                               |    |                  |  |

### Teaching Plan for the Session:2022-23

**Name of the Teacher:** Dhritashri Das

**Department:** Botany

**Paper Name:** Plant and Microbial diversity

**Learning Objectives:**

**On successful completion of the course, students will have**

1. Basic understanding of general characters and cell structure of algae
2. Basic knowledge of classification and reproduction of algae
3. Brief understanding of *Nostoc*, *Oedogonium* and *Chara*

**Semester:** first

**Paper Code:** BOT-HC-1016

| 4 | A brief account on <i>Nostoc</i>  | Books, practical            | Chalk and blackboard | MCQs                             | sessional examination |
| 5 | A brief account on <i>Oedogonium</i>  | Books, practical            | Chalk and blackboard | MCQs                             | sessional examination |
| 6 | A brief account on <i>Chara</i>   | Books, practical            | Chalk and blackboard | MCQs                             | sessional examination |
|   | Practical   |                             |                      |                                  |                       |
| 1 | Study of structure of TMV and Bacteriophage (electron micrographs/models).        | Photograph                  | Lecture, practical   | Demonstration                    | Practical copy, viva  |
| 2 | Study of morphology of Nostoc, Oedogonium (Temporary preparation of slides).      | Specimen, Slide, Microscope | Lecture, practical   | Technique Demonstration          | Practical copy, viva  |
| 3 | Study of morphology of Nostoc, Chara (Temporary preparation of slides).           | Specimen, Slide, microscope | Lecture, practical   | Identification and demonstration | Practical copy, viva  |
| 4 | Study of vegetative and reproductive parts of Marchantia (preparation of slides). | Specimen, Slide, microscope | Lecture, practical   | Identification and demonstration | Practical copy, viva  |

|   |   |                             |                    |                                  |                      |
|---|---|-----------------------------|--------------------|----------------------------------|----------------------|
| 5 | Study of vegetative and reproductive parts of Polytrichum(preparation of slides).               | Specimen, Slide, microscope | Lecture, practical | Identification and demonstration | Practical copy, viva |
| 6 | Study of Lycopodium/ Selaginella (morphology, strobilus, and spores)                            | Specimen, Slide, microscope | Lecture, practical | Identification and demonstration | Practical copy, viva |
| 7 | Study of Cycas/ Pinus and Gnetum (morphology, leaf/ needle, megasporophyll and microsporophyll) | Specimen, Slide, microscope | Lecture, practical | Identification and demonstration | Practical copy, viva |
| 8 | Study of leaf venations in dicots and monocots (at least two specimens each)                    | specimen                    | Lecture, practical | Identification and demonstration | Practical copy, viva |
| 9 | Study of different types of inflorescences and fruits.  | specimen                    | Lecture, practical | Identification and demonstration | Practical copy, viva |

### Teaching Plan for the Session:2022-23

**Name of the Teacher: Dhritashri Das**

**Department: Botany**

**Paper Name: Mycology and Phytopathology**

**Learning Objectives:**

**Semester: 2<sup>nd</sup>**

**Paper Code: BOT-HC-2016**

**On successful completion of the course, students will have**

1. Basic understanding of general characters and cell structure of fungi
2. Basic knowledge of classification and reproduction of fungi

| Sl. No of Lecture | Topic/ Subtopic  | Learning Resources        | Mode of Teaching & ICT Tools | Experiential / Participating Learning Used | Mode of Assessment for CIE              |
|-------------------|--|---------------------------|------------------------------|--|---|
|                   | <b>Unit 5: Basidiomycotina</b>   |                           |                              |  |   |

### Teaching Plan for the Session:2022-2023

**Name of the Teacher: Dhritashri Das**

**Department: Botany**

**Semester:5<sup>th</sup>**

**Paper Name: Reproductive Biology of Angiosperms**

**Paper Code: BOT-HC-5016**

**Learning Objectives: On successful completion of this course, students will have**

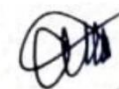

1. Basic knowledge of development of flower.
2. Concept of self-incompatibility

| <b>Sl. No of Lecture</b> | <b>Topic/ Subtopic</b>                  | <b>Learning Resources</b> | <b>Mode of Teaching &amp; ICT Tools</b> | <b>Experiential / Participating Learning Used</b> | <b>Mode of Assessment for CIE</b> |
|--------------------------|---|---------------------------|---|---|-----------------------------------|
|                          | <b>Unit 2: Reproductive development</b> |                           |   |   |                                   |
