

Best Practice 1

Title of the Practice: Digital Financial Literacy

Digital financial Literacy is the ability to know and use a range of digital tools for managing income and expenditure effectively. Digital tools have become essential in participating in modern economy now a days. Digital financial literacy includes the knowledge of online banking platforms, budgeting apps, technical terms used in digital platforms and financial security. This helps one make better financial decisions and control digital finance risk. In personal level it helps in financial management, budgeting and saving. At business level, it helps on facilitating better financial decision making.

Considering the need of digital financial literacy the College, especially the departments of Economics, Mathematics and Computer Science in association with the other departments and staff have been striving to conduct various programmes for the students and community people of surrounding area and adopted village.

Objective: The chief purpose of arranging these programmes is

1. to create people's awareness on digital financial services
2. to provide the consumers the literacy of the use of the financial services delivered through mobile phones, personal computers, the internet
3. to educate individuals on how to make informed online safety and security measures when conducting financial transactions
4. to enable them to put digital literacy in to action
5. to improve overall financial wellbeing through the use of digital resources
6. to get informed about the options and futures

Practice :

1. to enhance and inculcate the habit of digital banking the college arranged in the campus
ATM facility for the students.
2. The college authority has arranged all payment systems relating to admission and examination on online mode

3. The IQAC and various Departments in association with the Students Union have been arranging talks and lecture demonstrations on financial literacies, financial managements ,tradings and its impact on financial status etc.

4. The Department of Mathematics has conducted an Add On Course on Introduction to Options and Future Trading from 15/10/2022 to 29/05/2023

Outcome:

The Mobile ATM provided by SBI,Nalbari has helped the students with hassle free withdrawal of money using digital/physical card.

The online mode of payments of fees relating to admission and examination process has become a regular and popular practice among students.

As a result of attending different workshops and talks on digital financial literacy the targeted groups are found to be relaxed in regulating the expenses. Most of the students have received scholarship and they have got informed how to reduce the expense through better regulation.

The targeted groups are also found to increase decision making when selecting insurance ,loans, investments and using credit cards.

The targeted groups are also enlightened with the Options and Futures of trading in a Digital World.

Best Practice 2.

Title of the Practice: Go Green and Keep Clean: An initiative to maintain green and clean environment
